

CALAMAR FOUNDATION

May is Calamar Foundation Month! Stay tuned for more information and for a Foundation event!

The goal is for each property to have at least 50% donation participation!

Donations to the Foundation go towards our local American Heart Association, American Cancer Society and Alzheimer's Association.

We are looking forward to having a representative from these organizations join us in May for a special panel discussions, hands-on demonstrations, information, and question and answer periods.

Stay tuned for more information.

“Come as strangers, live as friends”

Where the Easter Bunny originated: According to some sources, the Easter bunny first arrived in America in the 1700s with German immigrants who settled in Pennsylvania and transported their tradition of an egg-laying hare called “Osterhase” or “Oschter Haws.” Their children made nests in which this creature could lay its colored eggs.

Five other Easter Facts:

1. The tallest Easter egg chocolate was made in Italy in 2011. It stood at 10.39 meters and weighed an astounding 7,200 kg.
2. The art of painting eggs is called pysanka, which originated in Ukraine. It involves using wax and dyes to color the egg.
3. There used to be a tradition churches observed that resembled the game of "hot potato." Here, the priest would toss a hard boiled egg to one of the choir boys. The boys would toss the egg amongst themselves and when the clock struck 12, whomever had the egg was the winner and got to keep the egg.
4. Peep peep... did you know Americans buy more than 700 million marshmallow Peeps during Easter? This makes Peeps the most popular non-chocolate Easter candy.
5. Americans consume more than 16 million jelly beans during this holiday. That is enough jelly beans to circle the globe not once, not twice, but three times.

Quote of the Month: “No winter lasts forever, no spring skips its turn. April is a promise that May is bound to keep and we know it” - Hal Borland
