

Riddle For the Day: It's not every day that a friend comes along who can be treasured by a great grandmother, grandmother, mother, and daughter. Who is this friend?
Raggedy Ann & Andy dolls.

Easy Rider Transportation provided by Steuben Office for Aging

Must be able to shop independently and get in and out of the van with minimal assistance.

Only small portable oxygen tanks allowed that will be the sole responsibility of the rider.

Six maximum participants can go

The van can make stops at Walmart, Aldi's, Wegman's, Tops, and Dollar Tree.

Available the 2nd and 4th Friday of each month unless otherwise noted.

Sign-up sheet will be in the lobby.

Thank you to all who donated to the Calamar Foundation!

The speed limit for the parking lots is 10 mph, for the safety of everyone, please adhere to the speed limit.

The lines and arrows will be repainted when weather gets warmer, for clearer visibility and directions. There are one-way signs, again adhere to the signs.

Also, for those of you who have relatives or friends come for visits and/or stay over, please make sure that they are using the visitor parking. Keep in mind that you are responsible for your visitors.

Recyclables - If you have any cardboard, please try and break them down or flattened them when placing in the trash rooms as they take up a lot of space.

JUNE

“Come as strangers, live as friends”

When Is The First Day Of Summer?

The first day of summer 2019 arrives with the solstice on Friday, June 21st at 11:54 a.m. EDT. For those of us in the Northern Hemisphere, this marks the longest day of the year and the moment when the Sun reaches the Tropic of Cancer, its highest point. For those who live in the Southern Hemisphere, this is the shortest day of the year and the arrival of winter. The solstice happens at the same moment for everyone, everywhere on Earth.

What Does The Term “Solstice” Mean?

The term “solstice” comes from the Latin words sol (sun) and sistere (to stand still). At the solstice, the angle between the Sun's rays and the plane of the Earth's equator (called declination) appears to stand still. This phenomenon is most noticeable at the Arctic Circle where the Sun hugs the horizon for a continuous 24 hours, thus the term “Land of the Midnight Sun.”

Fun fact: Be sure to look at your noontime shadow around the time of the solstice. It will be **your shortest noontime shadow of the year!**

Quote of the Month: “I want to be remembered as a darn good entertainer, nothing spectacular. A good entertainer who made people enjoy themselves and made them laugh a little. I want them to think “He was a nice guy. He did pretty good and we loved him.” Dean Martin
